

GYMNASTICS CLASSES

Our Gymnastics Program is designed to build strength, coordination, flexibility, and confidence through progressive skill development. Students work on age-appropriate skills using the four main gymnastics apparatus (Vault, Bars, Beam, and Floor) while learning proper technique, body awareness, and safety. Acro-Tumbling focuses on building muscle strength, flexibility, and control to develop floor tumbling skills. Boys Gymnastics is a high-energy class tailored to boys that develops strength, coordination, agility, and confidence through structured gymnastics training and skill progression. Obstacle Course Training is a fun and challenging class that enhances strength, speed, balance, and problem-solving skills through creative obstacle courses and athletic challenges. Placement on the ADMA Gymnastics Teams are by invitation and by director approval.

Class levels are determined by the student's age as of September 1, 2026. Adjustments may be made at the discretion of our directors to ensure the best fit for each student.
